**SECOND SUPERSEDING INDICTMENT**

## THE GRAND JURY CHARGES THAT:

## GENERAL ALLEGATIONS

4 These General Allegations are realleged and incorporated by reference in  
5 Count One (Conspiracy to Engage in a Racketeer Influenced Corrupt Organization).

## Introduction

7     1. At all times relevant to this Indictment, the defendants, and others known  
8 and unknown to the grand jury, were members and associates of a criminal organi-  
9 zation, herein referred to as the "Infraud Organization," which engages in, among  
10 other things, acts of identity theft and financial fraud. These acts include, but are  
11 not limited to: money laundering; trafficking in stolen means of identification; traf-  
12 ficking in, production and use of counterfeit identification; identity theft; trafficking  
13 in, production and use of unauthorized and counterfeit access devices; bank fraud;  
14 and wire fraud, as well as services associated with all of the above. The Organization  
15 operates in the District of Nevada and elsewhere.

16       2. A primary purpose of the Infraud Organization is to promote and grow in-  
17 terest in the Infraud Organization as the premier destination for carding, and to  
18 direct traffic and potential purchasers to the automated vending sites of its mem-  
19 bers, which serve as online instruments that traffic in stolen means of identification,  
20 personally-identifying information, stolen financial and banking information, and  
21 other illicit goods. As of March 2017, there were 10,901 member accounts on the  
22 Infraud Organization's discussion forum.

## Definitions

3. The following are definitions for terms used throughout this Indictment:

3 a. "AVS" or "automated vending site" are used to describe automated  
4 websites that do not require human intervention to function, and that are used by  
5 Infraud members to purchase and sell illicit goods.

6 b. "Bulletproof Hosting" and "Abuse Hosting" are services provided  
7 by a domain or web hosting firm that allows their customers considerable leniency  
8 in the kinds of material the customer distributes from the firm's servers. Such ma-  
9 terial may include spam, compromised credit card data, high yield investment prod-  
10 uct ("Ponzi") schemes, online gambling, and malware distribution infrastructure.

11       c. "Carded travel services" are services wherein the vendor books  
12 things such as airline or train tickets, hotel rooms, rental cars, sporting or entertain-  
13 ment event ticket, or other items for his or her customer. These bookings are made  
14 using fraudulent or stolen credit card numbers. In exchange, the customer pays the  
15 vendor a fraction of the face value of the items booked—typically, 20-30%.

16                   d. "Carding" refers to the general concept of purchasing retail items with  
17 counterfeit credit cards or stolen credit card information. Such scheme may involve  
18 a counterfeit credit card that has been encoded with the legitimate victim account  
19 information, and is presented to a store's cashier by the offender. Often, various  
20 false identification documents are used to facilitate this fraud. "Carders" is a term  
21 used by members of a carding organization to describe themselves.

e. "CVV" and "fulls" refer to compromised credit card account data that typically contains all of a cardholder's information except for information encoded on the magnetic track on the rear of the card. This account data generally includes an account holder's name, date of birth, social security number, address, telephone and mother's maiden name, as well as the security code on the rear of the credit card.

f. "Dumps" are compromised credit card account data.

7 g. "Drop" can have several different meanings depending on the context  
8 in which it is used, but generally refers to a location or individual able to securely  
9 receive and then forward goods obtained via carding or other types of fraud. A typical  
10 drop service request might be: "Do you have a **drop** I can ship a laptop to?"

11 h. "Forum" and "Website" are terms used interchangeably to describe  
12 the online gathering place used as a meeting location for Infraud members.

13 i. "Holograms" are labels with a hologram printed onto them for security reasons. They are commonly found on genuine credit cards and identifications.

15 j. "ICQ" is a free instant messaging electronic communication service, or  
16 "chat" service. ICQ user accounts are identified by a Universal Identification Num-  
17 ber, or "UIN." An ICQ user may store frequently-contacted UINs in a "buddy list."

18 k. "Internet Protocol address," and "IP address," refer to a network  
19 identifier used by a computer to access the Internet. IP addresses are assigned to  
20 computers by the Internet Service Provider they use to access the Internet.

1       I. “**Liberty Reserve**” was an online currency utilized by Infraud mem-  
2 bers to facilitate the sale and purchase of compromised access devices, personal iden-  
3 tifying information, malware and the services associated with such.

4       m. “**Malware**” is hostile or intrusive software that can be used to com-  
5 promise end-user PCs and smartphones or retail point-of-sale (“POS”) systems,  
6 among other things. Although functionality varies, **malware** is often used to harvest  
7 personally-identifying information and financial data, to gather intelligence for later  
8 use in a fraud scheme, or to electronically and unlawfully monitor victims.

9       n. “**PHP**” stands for “PHP: Hypertext Preprocessor,” and is a program-  
10 ming/scripting language commonly used to create interactive websites, such as  
11 AVSes, as well as other Internet-related tools and applications.

12       o. “**PM**” means “**Private Message**.” These are any non-public messages  
13 sent between users on a website or service, such as the Infraud Organization’s forum.

14       p. “**Proxy**” and “**Proxy Server**” describe a computer that acts as an in-  
15 termediary in a client’s Internet connection, relaying that client’s Internet request  
16 to its ultimate destination on the Internet and relaying back the destination’s re-  
17 sponse or content to the client. **Proxies** are often used to provide a degree of ano-  
18 nymity by obscuring the user’s originating IP address. Generally, the traffic itself  
19 between a **proxy server** and its client is unencrypted.

20       q. “**Ripper**” refers to a vendor of illicit goods of poor quality, or one who  
21 did not deliver the goods promised in a transaction. Infraud leadership routinely  
22 policed the forum for **rippers**, disciplining them to protect the general membership.

1       r. “Virtual Private Network” and “VPN” describe a connection config-  
2 uration very similar to that involved with a proxy server, except that a VPN forms  
3 an encrypted tunnel from the client to the VPN server, thus providing a layer of  
4 privacy to the data traffic being exchanged between the client and the VPN.

5       s. “Web Hosting” services maintain server computers connected to the  
6 Internet. Their customers use those computers to operate websites on the Internet.  
7 Customers of web hosting companies place files, software code, databases, and other  
8 data on servers that they wish to be accessible on the Internet. The Infraud Organi-  
9 zation’s website is an example of something that is provided via a web host.

28 "Mena2341," "MenaSex,"  
29 [36] **John Doe #6**, a.k.a. "Goldenshop," "Malov";

16 the defendants herein, and others known and unknown to the grand jury, are mem-  
17 bers of, employed by, and associates of the Infraud Organization. Members and as-  
18 sociates of the Infraud Organization operate in Las Vegas, Nevada; the United  
19 States; and throughout the rest of the world.

20 5. The Infraud Organization, including its leadership, members, and associ-  
21 ates, constitutes an enterprise as defined by 18 U.S.C. § 1961(4): that is, a group of  
22 individuals associated-in-fact,. The enterprise constitutes an ongoing organization

1 whose members function as a continuing unit for a common purpose of achieving the  
2 objectives of the enterprise. The enterprise is engaged in, and its activities affect,  
3 interstate and foreign commerce.

4 6. The hierarchy of the Infraud Organization includes, but is not limited to:

5 a. **Administrators**, a.k.a. "4DMini57r470rz": Administrators are indi-  
6 viduals that serve as a governing council of the Infraud Organization who, collec-  
7 tively, control the destiny of the organization. The administrator(s) initially seeded  
8 the Infraud Organization forum with "reputable" vendors of contraband in order to  
9 attract traffic and membership and grow the organization. They handle the day-to-  
10 day management decisions of the Infraud Organization, as well as long term strate-  
11 gic planning for its continued viability. They determine which individuals are per-  
12 mitted to become and remain members of the Infraud Organization; the functions,  
13 responsibilities and levels of access to information for all members of the organiza-  
14 tion; and the rewards accorded members for their loyalty to the organization as well  
15 as the punishments meted out to members evidencing disloyalty to the organization.  
16 Furthermore, they decide when, how and under what circumstances to attack and  
17 to retaliate against members of rival criminal organizations and their associated In-  
18 ternet websites. The administrator(s) are accorded full access to, and privileges on,  
19 the computer servers hosting the Infraud Organization's websites, and, thus, have  
20 the ultimate responsibility for the physical administration, maintenance, and secu-  
21 rity of these servers and websites.

22

b. **Super Moderators**, a.k.a. "Super MODER470R5": Super Moderators oversee and administer one or more subject-matter specific areas on the Organization's forum that either fall within an area of their expertise or cover their geographic location, limiting their activities to editing and deleting posts by members on these forums and mediating disputes. Super Moderators also frequently serve as reviewers for particular products or services with which they have an expertise.

c. **Moderators**, a.k.a. "M0d3r470r2": Moderators, like Super Moderators, oversee and administer one or more subject-matter specific areas on the Organization's forum that either fall within an area of their expertise or cover their geographic location. However, Moderators tend to be more limited in the authority they are granted, and are generally limited to moderating one or two specific sub-forums.

d. **Vendors, a.k.a. "Professors" or "Doctors":** Vendors sell illicit products and services to members of the Infraud Organization. These sales may occur through the vendor's own website, to which would-be purchasers are directed by the advertisements they pay for and place on the Infraud Organization's web forum. Such sales may also occur directly between the vendor and customer, i.e. via email, PM, or ICQ. Products sold by vendors are reviewed on the forum by Infraud members, to ensure that vendors of low-quality goods do not remain in business with the Organization. This helps to cement the Organization's reputation as a premiere online destination for safe, high-quality and readily-available fraud-related contraband.

e. **VIP Members**, a.k.a. "Fratello Masons" or "Advanced Members":  
These are some of the premiere members of the Infraud Organization. The leaders

1 of the Organization bestow this title upon longstanding or otherwise notable mem-  
2 bers in order to distinguish them from the general membership and from vendors.

3 f. **Members**, a.k.a. "Phr4Ud578r": General members of the Infraud Or-  
4 ganization typically use the organization's websites to gather and provide infor-  
5 mation about perpetrating criminal activity; to share information with and solicit  
6 other members to engage in their criminal schemes; to use the website's vendors to  
7 facilitate their unlawful purchases of credit card dumps, false identification docu-  
8 ments, and other contraband; and in order to have their individual disputes with  
9 other Organization members settled by the Administrator(s) or Moderators.

10 7. Members join the Infraud Organization via an online forum. To be granted  
11 membership, an Infraud Administrator must approve the request. Once granted  
12 membership, members can post and pay for advertisements within the Infraud fo-  
13 rum. Members may move up and down the Infraud hierarchy. The Infraud Organi-  
14 zation continuously screens the wares and services of the vendors within the forum  
15 to ensure quality products. Vendors who are considered subpar are swiftly identified  
16 and punished by the Infraud Organization's Administrators.

17 **The Defendants**

18 8. At various times relevant to this Indictment, the following individuals,  
19 among others, were members or associates of the Infraud Organization in the vari-  
20 ous capacities or ranks set forth below, carrying out and agreeing to carry out various  
21 activities in furtherance of the enterprise described in this Indictment:

22 [1] **Svyatoslav Bondarenko** created the Infraud Organization in Oc-  
tober of 2010. In addition to being one of the Organization's *de facto*

1 leaders, by virtue of his standing, **Bondarenko [1]** held the rank  
2 of Administrator within the Organization. In 2015,  
Bondarenko [1] stopped posting on and/or using Infraud.

3 [2] Sergey Medvedev is a co-founder of the Infraud Organization  
4 with **Bondarenko [1]**, and has been an active member on the Or-

8 January of 2011. He advertises in the Organization's forum as a  
9 Vendor of dumps, and is an operator of the AVS at "golden-  
10 dumps.cc"

11 **Purposes of the Enterprise**

12 9. The purposes of the enterprise include, but are not limited to:

13 a. To enrich the members and associates of the Infraud Organization  
14 through the unlawful trafficking in: counterfeit and illegal means of identification,  
15 document-making implements, counterfeit identification documents, device-making  
16 equipment, and unauthorized and counterfeit access devices to include stolen credit  
17 card numbers;

18 b. To establish the Organization as the premier online destination for the  
19 purchase and sale of stolen property and other contraband, such as victims' personal  
20 and financial means of identification, and forged identification documents;

21 c. To "educate" members in obtaining and using such property and con-  
22 traband;

23 d. To direct traffic, primarily through advertising, to member-owned  
24 and/or operated AVSes and other websites to generate illicit proceeds, and to thereby  
25 promote the Infraud Organization as the premier online source of "reputable" ven-  
26 dors and high-quality contraband.

1                   e. To protect the enterprise and its members from detection, apprehension  
2 and prosecution by law enforcement; and

3                   f. To preserve and protect the reputation, operations and profits of the  
4 enterprise through discipline, expulsion, and other acts of retribution against non-  
5 conforming members.

6                   Manner and Means of the Enterprise

7                   10. The manner and means by which the defendants and their associates con-  
8 duct and participate in the conduct of the affairs of the enterprise include, but are  
9 not limited to, the following:

10                   a. Members of the enterprise utilize an online discussion forum called "In-  
11 fraud," with the slogan of "In Fraud We Trust," controlled by Infraud Organization  
12 Administrators, to discuss, meet, and conduct criminal activities. Such activities in-  
13 clude the sale and purchase of stolen social security numbers, dates of birth, ad-  
14 dresses, passwords, and other personally identifying information and property, ad-  
15 vertising services to facilitate such activity, and disseminating malware.

16                   b. The Infraud Administrators bestowed specific benefits on members to  
17 include the ability to pay for posted advertisements for their respective AVSes, post  
18 questions related to the sale and purchase of stolen personally-identifying infor-  
19 mation and property and the dissemination of malware, and obtain free samples of  
20 the "wares" of various Infraud vendors.

21                   c. Members of the enterprise and their associates are classified by various  
22 roles assigned to them by the leadership of the Infraud Organization. This hierarchy

1 was established to maintain order, to grow the Organization's membership, and to  
2 facilitate the goals of the enterprise.

3                   d. To enforce the rules of the enterprise, and maintain its reputation,  
4 members and associates engage in the feedback or rating of various vendors on the  
5 website. The system was designed to maintain the quality of contraband sold via the  
6 Infraud website, as well as via associated member-owned and/or operated vending  
7 websites.

8                   e. The leadership of the Infraud Organization routinely policed the In-  
9 fraud forum for "rippers" and other rule-violators, in order to ensure the quality of  
10 contraband sold and to protect the reputation of the general membership of the In-  
11 fraud Organization.

12                  f. Members and associates strive to achieve shared anonymity, to remain  
13 as anonymous as possible in order to evade law enforcement and other "real-world"  
14 or "offline" consequences for their fraudulent and criminal activities. To that end,  
15 members and associates remain anonymous even to each other. They are generally  
16 referred to online and interact only via their online "nic" or "username." Members  
17 and associates use any means possible to hide their identity.

18                  g. Members and associates launder proceeds obtained through their un-  
19 lawful activities by using, among other methods, Liberty Reserve, Bitcoin, Perfect  
20 Money, WebMoney, and other digital currencies, to conceal the nature of their pro-  
21 ceeds and move the proceeds among enterprise members and associates.

22

Case 2:17-cr-00306-JCM-PAL \*SEALED\* Document 188 Filed 01/30/18 Page 23 of 50

1 h. Members of the enterprise and their associates use the Infraud Organ-  
2 ization's website to advertise and direct buyers and sellers to their own AVSes and  
3 websites. This is done to complete sales of contraband, to create repeat customers,  
4 and to elevate their status in the Organization as "reputable" vendors.

5 i. Members of the enterprise and their associates use various means to  
6 communicate, complete transactions, and establish connections, all designed to pro-  
7 tect their anonymity, evade detection and prosecution by law enforcement, and pro-  
8 vide security for the criminal organization against attacks by other rival criminal  
9 organizations. These methods may include, but are not limited to, the use of:

10 i. Various website forums and chat rooms that are controlled by  
11 the Infraud Organization for use as their online gathering places;  
12 ii. Private messaging ("PM");  
13 iii. E-mail;  
14 iv. ICQ chat;  
15 v. Proxies;  
16 vi. Virtual private networks ("VPNs"); and  
17 vii. Protected drop sites ("drops").

14 together with others known and unknown to the grand jury, being persons employed  
15 by and associated with the Infraud Organization, an enterprise as described more  
16 fully above, which engaged in, and the activities of which affected, interstate and  
17 foreign commerce, did knowingly, willfully, and unlawfully combine, conspire, con-  
18 federate, and agree with one another to violate 18 U.S.C. § 1962(c), that is, to con-  
19 duct and participate, directly and indirectly, in the conduct of the affairs of said en-  
20 terprise through a pattern of racketeering activity, as defined in 18 U.S.C. §§ 1961(1)  
21 and (5), consisting of multiple acts indictable under the following provisions of fed-  
22 eral law:

23 a. 18 U.S.C. § 1028, fraud and related activity in connection with identifi-  
24 cation documents, authentication features, and information; and  
25 b. 18 U.S.C. § 1029, access device fraud; and  
26 c. 18 U.S.C. § 1343, fraud by wire, radio, or television; and
